- ASTM D3462
- ASTM E108/UL 790, Class A Fire Resistance
- ICC-ES AC438\*
- UL ER2453-01\*\*

**The SureNail® Difference—  
 A technological breakthrough  
 in roofing.** The innovative

features of Owens Corning® TruDefinition® Duration® Shingles with SureNail® Technology offer the following:

**Breakthrough Design.** Featuring a tough, woven engineered reinforcing fabric to deliver consistent fastening during installation.

**Triple Layer Protection™.** A unique “triple layer” of reinforcement occurs when the fabric overlays the common bond of the shingle laminate layers that offers excellent fastener holding power.

**Excellent Adhesion.** Our enhanced Tru-Bond® sealant grips tightly to the engineered fabric nailing strip on the shingle below.

**Excellent Adhesive Power.** Specially formulated, wide adhesive bands help keep shingle layers laminated together.

**Exceptional Wind Resistance.** Engineered to deliver 209 KM/H\* / 130 MPH wind warranty performance with only 4 nails. 33% fewer nails are required for warranty protection<sup>1</sup>, which can mean fewer deck penetrations.

<sup>†</sup>See actual warranty for complete details, limitations and requirements. †Owens Corning Roofing strives to accurately reproduce photographs of shingles. Due to manufacturing variances, the limitations of the printing process and the variations in natural lighting, actual shingle colours and granule blends may vary from the photo. The pitch of your roof can also impact how a shingle looks on your home. We suggest that you view a roofing display or several shingles to get a better idea of the actual colour. To accurately judge your shingle and colour choice, we recommend that you view it on an actual roof with a pitch similar to your own roof prior to making your final selection. Colour availability subject to change without notice. Ask your professional roofing contractor for samples of colours available in your area. ††This illustration depicts Triple Layer Protection® and the amount of Triple Layer Protection® may vary on a shingle-to-shingle basis. ††Tru-Bond® is a proprietary premium weathering-grade asphalt sealant that is blended by Owens Corning Roofing and Asphalt, LLC. ††40-Year Limited Warranty on commercial projects. †Where allowed by code. †Applicable in Canada only. Preferred Contractors are independent contractors and are neither affiliates nor agents of Owens Corning Roofing and Asphalt, LLC, or its affiliated companies. #International Code Council Evaluation Services Acceptance Criteria for Alternative Asphalt Shingles. ##Underwriters Laboratories Evaluation Service Evaluation Report.
