* See actual warranty for complete details, limitations and requirements.

** 209 KM/H / 130 MPH is applicable only with 6-nail application and Owens Corning™ Starter Shingle product application in eaves and rakes in accordance with installation instructions.

† Applicable in Canada only.

‡ Owens Corning Roofing strives to accurately reproduce photographs of shingles. Due to manufacturing variances, the limitations of the printing process and the variations in natural lighting, actual shingle colours and granule blends may vary from the photo. The pitch of your roof can also impact how a shingle looks on your home. We suggest that you view a roofing display or several shingles to get a better idea of the actual colour. To accurately judge your shingle and colour choice, we recommend that you view it on an actual roof with a pitch similar to your own roof prior to making your final selection. Colour availability subject to change without notice. Ask your professional roofing contractor for samples of colours available in your area.

‡‡ 40-year Limited Warranty on commercial projects.
